## Fire Read About Science:

**Deanes' Manual of the History and Science of Fire-arms ...** John Deane,1858 *Using Social Science to Understand and Improve Wildland Fire Organizations* Gregory Larson,2007 The wildland fire community has spent the past decade trying to understand and account for the role of human factors in wildland fire organizations Social research that is relevant to managing fire organizations can be found in disciplines such as social psychology management and communication However such research has been published primarily for scientific and business audiences and much of the fire community has not been exposed to it Here we have compiled and organized knowledge from a variety of social science disciplines so that it can be used to improve organizational practices related to firefighter and public safety to assess the effectiveness of safety campaigns and to improve firefighter safety trainings This annotated reading list summarizes approximately 270 books articles and online resources that address scientific and management concepts helpful for understanding the human side of fire management The first section Human Factors and Firefighting introduces readers to key workshops and writings that led to the recognition that human factors are prime ingredients of firefighter safety The second section Foundations for Understanding Organizations consists of social science research that provides a foundation for understanding organizational dynamics This section includes readings on decision making and sensemaking organizational culture identification and identity leadership and change organizational learning and teams and crews The third section Understanding Organizations in High Risk Contexts explores organizations that deal regularly with risk uncertainty and crisis This section includes readings on risk and uncertainty high reliability organizing and crisis communication The publication concludes with Internet resources available for those interested in the management of fire organizations

*Reading Science* J.R. Martin,Robert Veal,2005-07-15 This collection examines science discourse from a number of perspectives drawing on new rhetoric functional linguistics and critical theory The renowned contributors include M A K Halliday Charles Bazerman and Jay Lemke [Proceedings : International Conference on Transfer of Forest Science Knowledge and Technology](#) ,2007 **Proceedings, International Conference on Transfer of Forest Science Knowledge and Technology** Cynthia Louise Miner,2009 Compiles papers presented by extensionists natural resource specialists tech transfer specialists and others at a conf that examined tech transfer theories methods and case studies Topics included adult educ extension diffusion of innovations social marketing tech transfer etc Descriptions of methods and case studies included combined digital media engagement of users and commun specialists in research integrated forestry applications Internet based systems science writing training video conf Web based ency etc Innovations transferred were best mgmt practices for water quality reforestation practices land mgmt system portable timber bridges reduced impact logging silvicultural practices urban forestry etc Illustrations
