Gorbachev Strategy:

Gorbachev's New Thinking and Third World Conflicts Jiří Valenta, Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries. Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped. This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations. In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in and around Afghanistan, Nicaragua, Angola, and Cambodia. Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam. This volume addresses a number of such conflicts. In addition to those already mentioned, conflicts in Ethiopia, Namibia, and the Philippines are discussed and their implications for Western policy makers are reviewed. As the contributors emphasize, despite current Soviet emphasis on peaceful solutions to regional conflicts, Gorbachev's New Thinking in foreign affairs is still decidedly selective. In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India. It is also too much to expect that the Soviet Union, much less Cuba and Vietnam, will completely cut ties to revolutionary allies worldwide. That said, the 1990s will undoubtedly be characterized by new Soviet foreign policy styles. Their shape and form is the subject of this book. It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World. Contributors include Vernon Aspaturian, Bhabani Sen Gupta, William E. Griffith, Jerry F. Hough, Douglas Pike, Howard Wiarda, A. H. T. Sheikh, Sabahuddin Kushkaki, Colin Legum, H. de V. du Toit, Khien Theeravit, Frank Cibulka, Alvaro Taboada, Charles William Maynes, W. Bruce Weinrod, Jiri Valenta.

Gorbachev's Economic Strategy in the Third World
Giovanni Graziani, 1990-02-15. Giovanni Graziani examines Gorbachev's reforms in terms of economic relations with the Third World and presents a detailed and sophisticated statistical analysis of Soviet economic assistance and trade. This book critically evaluates all the statistical data from Soviet and United Nations sources and presents the changing Soviet attitude toward indebtedness and the growing dissatisfaction expressed by both the Third World and the U S S R over the management of Soviet aid. The author notes a contradiction between Gorbachev's strategy and statistical evidence for the first years of his office but stresses that the recent moves to trade with South Korea and other Asian countries are bound to affect the Soviet geographical pattern of trade. His estimates show the increasing importance of agricultural products and fuels in Soviet imports and of military equipment and fuels in its exports. Particularly interesting is what Graziani calls the oil imbroglio, a triangular trade pattern in which the U S S R has increased its imports of crude oil from the Third World for reexport to the West in order to stabilize its export earnings in hard currencies threatened by falling oil prices. The book concludes that no expansion of Soviet economic ties with the Third World is foreseen in the short run and that eventual

Soviet participation in international economic organizations might further entail new conflicts with the Third World

Soviet people as evidenced by growing alcoholism drug addition and crime Gorbachev's strategy of perestroika or restructuring is his concept of accelerated socioeconomic development to revitalize the Soviet economy and the general social deterioration of Soviet society The success or failure of Gorbachev's unprecedented radical reforms in transforming the Soviet society and the Soviet economy will have far reaching consequences for the Soviet Union and the international community well into the 21st century
