Empirical Problem Of Female Social Class:

Women's Social Standing Roy A Carr-Hill, Colin W Pritchard, 2016-01-06 **Women's Social Standing** Roy A.

Carr-Hill, Colin Pritchard, 1992-01-01 What is social class Do we all have one Such questions are usually asked about men If women are considered at all it is usually as an appendage to one of the men in their lives It would be astonishing if female social scientists did not complain They do The ensuing debates are fun but of no use to those who need to analyze data This book instead focuses on the methodological issue of the appropriate form of a social classification In Part I the authors describe the genesis of the Registrar General's occupationally based classification and in particular its application to women arguing that it is not obviously appropriate in the current context In Part II they set out the technical criteria which ought to be met by any index and further argue that a social classification should have a specific domain of reference On this basis in Part III they compare the discrimination provided by the occupationally based classifications with that provided by the women's own height with surprising results The book concludes with an examination of the implications of the argument for those concerned in collecting and analyzing empirical data and for the theoretical debate about social class Class John Scott, 1996 Class and status are both foundational themes in the study of sociology John Scott brings together the central theoretical contributions to the debate on class and status as aspects of stratification Using a selection of seminal pieces and commentaries on the classics it raises central issues for example the distinction between class and status which are then examined by leading authorities **Statistical Journal of the United Nations Economic Commission for Europe**, 1996

Handbook of Marriage and the Family Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through

Chall,2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Proceedings** ,1964 **Thorstein Veblen: Specialized topics** John Cunningham Wood,1993 Abortion and Dialogue Ruth Colker,1992-09-22 The issues she takes on are crucial not solely the subject areas of reproductive rights and law or public policy lenses and judicial impact in women s and children s lives but also the more difficult and fundamental questions of how these hot topics can be approached so as to make the most of the good will of all and the force of free discussion for social learning she brings a strong evolving and distinctive perspective to the discussion Emily Fowler Hartigan In Abortion and Dialogue Ruth Colker argues that the state falsely views the woman and the fetus as having conflicting needs when it intervenes in decisions regarding pregnancies Colker s feminist theological perspective on reproductive health issues encourages both pro choice and pro life advocates to consider how the value of life is implicated in discussions of reproduction Colker argues that theology can contribute to our understanding if we apply the concepts of love compassion and wisdom to problems identified by feminist theory and to actual concrete situations the impact of abortion regulations on poor female adolescents the judicial treatment of abortion regulations state intervention into women s decision making during pregnancies carried to term Colker concludes by examining effective and respectful family planning strategies that truly help women in making reproductive choices The Cumulative Book Index ,1994 A world list of books in the English language **Social Inequality in Australian Society** John Stuart Western,1983 Chapter 4 demonstrates that Aborigines have limited access to resources facilities and services in Australian society considers factors such as employment income education health access to health and welfare services housing experiences with legal system land rights participation in politics and public affairs New Books on Women and Feminism ,1993 **Linguistics and Language Behavior Abstracts** ,1997 **Groups and Group Rights** Christine T. Sistare,Larry May,Leslie Francis,2001 In matters such as affirmative action or home schooling rights of ethnic and other minority groups often come into conflict with those of society in a culturally diverse population such as ours But before considering the dilemmas posed by these issues we must first ask such basic but important questions as what group rights are and how they intersect with the principles of democracy This new collection brings together some of today s leading thinkers from the cutting edge of these debates taking in a broad range of issues confronting philosophers sociologists and political scientists Contributors such as Carl Wellman Carol Gould and Rex Martin examine the nature of groups and the conflict between group rights and democracy and also consider case studies depicting current issues in cultural ethnic and religious rights The first section on the nature of groups examines some of the perplexing alternatives in

the formulation of a theory of group rights These articles investigate the kinds of rights minorities might claim and ask when groups can be held responsible for the acts of some of their members The second section addresses the treatment of groups in a democracy and the precarious balance between indifference toward minorities and capitulation to their demands Here the contributors examine five principles for the sensitive treatment of minority and disadvantaged groups in a democratic society A final section explores specific conflicts between subgroup and societal claims through case studies dealing with affirmative action religious practice and the education of children and the land rights of indigenous peoples By drawing on the legal and political dilemmas related to these cases the authors confront issues of core versus peripheral interests of individual member versus subgroup rights and of the possibilities for social openness raised in the preceding sections

Written from varied perspectives *Groups and Group Rights* offers stimulating reading for both students and professionals as it takes on some of the most pressing dilemmas confronting our society
