*The Works Of George Peele: Collected And Edited, With Some Account Of His Life And Writings, By The Rev. Alexander Dyce, B. A. George Peele, 1829*     Plays and Poems George Peele, 1887     The Works of George Peele George Peele, Alexander Dyce, 1828     *The Life and Works of George Peele* George Peele, 2003     **The Works of George Peele** George Peele, 1888     **The Life and Minor Works of George Peele** David Hamilton Horne, 1952     **George Peele** David Bevington, 2017-03-02

David Bevington's volume on George Peele looks at the literary achievement of that dramatist and author who was born in London some time around 1556-8 was educated at Oxford and returned to London to become a prolific writer until his death in 1596. He died at the age of forty in poverty and was never far from the threat of debtors' prison throughout his adult life. Peele like Greene and Marlowe was caricatured in his immediate afterlife as the embodiment of a popular and thriving literary culture in London of the late sixteenth century, a world that was competitive and relentlessly unforgiving in its economic pressures but also colourful, adventuresome and vital. This volume collects together for the first time the best contemporary published work on Peele by a group of renowned scholars. They discuss Peele's Lord Mayor's Pageants, Court Entertainments, occasional poems and his plays *The Arraignment of Paris*, *The Old Wives Tale*, *The Battle of Alcazar*, *Edward I*, *David and Bathsheba* and *Titus Andronicus*. The essays are accompanied by David Bevington's substantial introduction which discusses Peele's life and works particularly in the context of the other five University Wits.

**The Works of George Peele** George Peele, 1828     Censorship & Cultural Regulation in the Modern Age Beate Müller, 2004

Censorship has become a fashionable topic not only because of newly available archival material from Eastern Europe and the former Soviet Union but also because the new censorship inspired by the works of Foucault and Bourdieu has widened the very concept of censorship beyond its conventional boundaries. This volume uses these new materials and perspectives to address the relationship of censorship to cultural selection processes such as canon formation, economic forces, social exclusion, professional marginalization, silencing through specialized discourses, communicative norms and other forms of control and regulation. Two articles in this collection investigate these issues theoretically. The remaining eight contributions address the issues by investigating censorial practice across time and space by looking at the closure of Paul's playhouse in 1606, the legacy of 19th century American regulations and representation of women teachers, the relationship between official and samizdat publishing in Communist Poland, the ban on *Gegenwartsfilme* (films about contemporary society) in East Germany in 1965-66, the censorship of modernist music in Weimar and Nazi Germany, the GDR's censorship of jazz and avantgarde music in the early 1950s, Aesopian strategies of textual resistance in the pop music of apartheid South Africa and in the stories of Mario Benedetti.
