Abstract

We present an outline of a checklist, the TUP-model, that covers the technological, usability, and pedagogical aspects of the educational environment so that more complete evaluations may be created. We base our model on our experience in usability evaluations and work with teachers in evaluating educational environments.

1. Introduction

Teachers selecting software environments for use in their own educational settings face a daunting task with the ever increasing number of educational environments available. By educational (software) environments we mean any software system or other electronic material that is used in an educational setting. Trying to find reviews of the plethora of environments available is even more challenging. Comparing the systems using the found reviews is currently even more difficult as there are no existing widely used evaluation methods.

2. Existing checklists

A number of generic checklists have been created for the evaluation of pedagogical and usability aspects or technical issues of software environments. In most cases generic checklists are adequate enough as creating domain specific checklists is a time-consuming and expensive task which is often left undone. Of the various checklists that have been created to help in the evaluation of educational environments we will take a brief look at the Delta checklist [7] and the constructivist checklist [2].

The constructivist checklist is directly tied to the underlying theory and focuses almost exclusively on the pedagogical aspects of the system being evaluated. The Delta checklist takes a slightly broader perspective with a strong emphasis on evaluating multimedia and visual appearance.

Ravden and Johnson [5] have created a method for evaluating the usability of a computer application. Our experiences with a slightly modified checklist [8] enable us to argue that the checklist is usable with end-users.

We have also used the Delta and modified Ravden and Johnson checklists with teachers creating the evaluations. The experiences obtained from these efforts have prompted us to begin the development of a new evaluation model.

3. The TUP-model

The experiences we have of using various checklists in the evaluation of educational environments has shown that they all concentrate mainly on one aspect, mainly the pedagogical aspect. Thus we propose to create a checklist that takes into consideration the instructional, technical, and usability aspect of educational environments. Some earlier work in this field exists (e.g. [6] and [3]). Of these the work done by Squires [6] is a step closer to our approach in which he extends heuristic checklists to include the evaluation of the environment's suitability to a given learning situation.

Our proposed checklist concentrates equally on the three aspects, thus the TUP-model. The three aspects are strongly interrelated, as shown in Fig. 1. As can be seen, both usability and pedagogy build upon the foundation of the technological aspects. Usability and pedagogy are interdependent and all three aspects have the functionality of the environment at their core.

It is important to note is that the whole evaluation is based on a single scenario of use. While use scenario's description belongs to the pedagogical aspect, we feel that it must be kept in mind during the whole evaluation. This means that undue generalizations must be avoided and the answers should relate to the use scenario.

For each of the three aspects we need to consider several different issues. In the technical aspects we must consider the availability, maintainability, and ease of initial setup and administration of the environment. In addition, the environments security and respect for the privacy of its users must

Evaluating Educational Environments

Evaluating Educational Environments Introduction

In the digital age, access to information has become easier than ever before. The ability to download Evaluating Educational Environments has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Evaluating Educational Environments has opened up a world of possibilities. Downloading Evaluating Educational Environments provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Evaluating Educational Environments has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Evaluating Educational Environments. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Evaluating Educational Environments. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Evaluating Educational Environments, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure

their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Evaluating Educational Environments has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Evaluating Educational Environments Books

What is a Evaluating Educational Environments PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Evaluating Educational Environments PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Evaluating Educational Environments PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Evaluating Educational Environments PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Evaluating Educational Environments PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs?

Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
