Feral Future:

Education Futures for School Leadership J-C Couture, Stephen Murgatroyd, 2024-10-21 Education Futures for School Leadership is a comprehensive resource to support school leaders as they encounter the growing complexity and uncertainties that characterize life in schools today Moving beyond conventional change management literature this book invites current and aspiring school leaders to apply the interdisciplinary tools of futures studies and strategic foresight to their work Given our shared global challenges young people deserve schools that are agile adaptive and responsive to many possible futures Driven by the imperatives of equity and inclusion the authors provide practical evidence informed strategies real world examples and use cases of futures thinking applied to school staff development and change strategies Each chapter engages with key educational realities differentiating instructional planning and assessment the impacts of artificial intelligence and other technologies the growing psycho social issues young people are facing and more Informed by years of international collaboration with forward thinking school leaders and scholars this book is both a field guide and a call to action for navigating the influence of the future on our present moment and the challenges and promises shaping school life today

Anticipation, Agency and Complexity Roberto Poli, Marco Valerio, 2019-02-15 This volume presents a selection of the Proceedings of the Workshop on Anticipation Agency and Complexity held in Trento Italy on April 2017 The contributions contained in the book brilliantly revolve around three core concepts agency complexity and anticipation giving precious insights to further define the discipline of anticipation In a world that moves increasingly fast constantly on the verge of disruptive events more and more scholars and practitioners in any field feel in need of new approaches to make sense of the complexity and uncertainty that the future seems to bear The theory of anticipation tries to describe how possible futures are intrinsically intertwined with the present

For the Wild Sarah M. Pike, 2017-10-03 For the Wild explores the ways in which the commitments of radical environmental and animal rights activists develop through powerful experiences with the more than human world during childhood and young adulthood The book addresses the question of how and why activists come to value nonhuman animals and the natural world as worthy of protection Emotions and memories of wonder love compassion anger and grief shape activists protest practices and help us understand their deep rooted dedication to the planet and its creatures Drawing on analyses of activist art music and writings as well as interviews and participant observation in activist communities Sarah M Pike delves into the sacred duties of these often misunderstood and marginalized groups with openness and sensitivity

Scenario Planning and Tourism Futures Albert Postma, Stefan Hartman, Ian Yeoman, 2024-12-10 This book offers a practical guide for scenario planning to make sense of the future of tourism for practitioners researchers and students It provides an overview of the theoretical development of scenario planning describes the scenario planning method and puts it into the context of strategic foresight A variety of scenario planning and futures case studies are presented which demonstrate how scenario planning is used and deployed Each case study is drawn from the European

Tourism Futures Institute's 12 years of practice emphasising the different stages of the scenario planning method and includes learning points and discussion questions to help readers understand key concepts theories and applications

The Bloomsbury Handbook of Religion and Nature Laura Hobgood, Whitney A. Bauman, 2018-05-17 Divided into four parts Earth Air Fire and Water this book takes an elemental approach to the study of religion and ecology It reflects recent theoretical and methodological developments in this field which seek to understand the ways that ideas and matter minds and bodies exist together within an immanent frame of reference The Bloomsbury Handbook of Religion and Nature focuses on how these matters materialize in the world around us thereby addressing key topics in this area of study The editors provide an extensive introduction to the book as well as useful introductions to each of its parts The volume's international contributors are drawn from the USA South Africa Netherlands Norway Indonesia and South Korea and offer a variety of perspectives voices cultural settings and geographical locales This handbook shows that human concern and engagement with material existence is present in all sectors of the global community regardless of religious tradition It challenges the traditional methodological approach of comparative religion and argues that globalization renders a comparative religious approach to the environment insufficient

Architectures of the Near Future Nic Clear, 2009-10-12 In this highly pertinent issue guest editor Nic Clear questions received notions of the future Are the accepted norms of economic growth and expansion the only means by which society can develop and prosper Should the current economic crisis be making us call into question a future of unlimited growth Can this moment of crisis economic environmental and technological enable us to make more informed choices about the type of future that we want and can actually achieve Architectures of the Near Future offers a series of alternative voices developing some of the neglected areas of contemporary urban life and original visions of what might be to come Rather than providing simplistic and seductive images of an intangible shiny future it rocks the cosy world of architecture with polemical blasts Draws on topics as diverse as synthetic space psychoanalysis Postmodern geography post economics cybernetics and developments in neurology Includes an exploration of the work of JG Ballard Features the work of Ben Nicholson

Feral Future Tim Low, 2002-12 A decade ago Tim Low journeyed to the remote northernmost tip of Australia Instead of the pristine rain forests he expected he found jungles infested with Latin American carpet grass and feral cattle That incident helped inspire *Feral Future* a passionate account of the history and implications of invasive species in that island nation with consequences for ecological communities around the globe Australia is far from alone in facing horrific ecological and economic damage from invading plants and animals and in Low's capable hands Australia's experiences serve as a wake up call for all of us He covers how invasive species like cane toads and pond apple got to Australia often through misguided but intentional introductions and what we can do to stop them He also covers the many pests that Australia has exported to the world including the paperbark tree *Melaleuca* that infests hundreds of thousands of acres in south Florida
