Festing Field Marshall:

Festing--Field Marshall Lyall Wilkes, 1991 **The Army List** Great Britain. Army, 1961 **Intelligent Warfare** Frank Kitson, 2025-01-30 As this superb memoir bears out General Sir Frank Kitson's 41 year career ranks among the most distinguished and eventful of the post 1945 era Commissioned into the Rifle Brigade at the end of the Second World War he distinguished himself during the vicious Mau Mau campaign His highly innovative tactics and personal courage earned him his first Military Cross The second quickly followed in Malaya at the height of the Emergency In typically understated style the Author describes his role planning the fight against communist aggression in Oman and his two tours in Cyprus the second when commanding 1st Battalion The Royal Green Jackets His effective uncompromising approach while commanding 39 Infantry Brigade in Belfast in the early 1970s was to have life long security implications for Kitson and his family Despite controversy he was marked out for high command As GOC 2nd Armoured Division in BAOR and Commandant of The Staff College his forensic brain and experience made a significant impact at a time of change His final appointment was Commander in Chief UK Land Forces How fortunate that this gifted gallant and inspiring leader was persuaded by his ever supportive wife Elizabeth to record his career and military thinking albeit on the condition it would only be published after his death The result is a highly readable wide ranging work which will appeal to all interested in late 20th Century military history The British Field Marshals, 1736-1997 T. A. Heathcote, 2012-10-24 Whether any advantage or benefit will be drawn from the suspension or effective abolition of the rank of Field Marshal is debatable What is certain however is that Dr Tony Heathcotes idea of compiling a definitive biographical dictionary of holders of this illustrious rank since its introduction by George II in 1736 is opportune and inspired Those readers who anticipate a dry recitation of bare facts and statistics are in for a disappointment A reference work this may be but the author by dint of his depth of knowledge has created a shrewd and highly readable commentary as well As General Sir Charles Guthrie the first soldier to be denied promotion to Field Marshal on appointment to Chief of Defense Staff observes in his Foreword this book embraces the history of the British Army over the last 250 300 years It covers not only the careers of key individuals but provides an understanding of their contribution to the successes and failures of our military past The diversity of personalities who have only the honor of wearing the coveted crossed batons in common is fascinating Alongside the household names of the great strategists and distinguished leaders lie little known and forgotten figures who gained their exalted rank by either luck accident of birth or diplomatic gesture The British Field Marshals merits a place on the bookshelf of any military historian but is likely to be found on his or her bedside table Whether or not the rank is ever resurrected as it has been in the past and as many will hope it will be again this delightful and useful book will remain the authoritative guide to all those who have held the highest military rank in the British Army **Ambiguity and Deterrence** John Baylis, 1995 Ambiguity and Deterrence focuses on the role of competing strategic beliefs in the formulation of British nuclear strategy between 1945 and 1964 Based on recently

released documents it is argued that the British approach to nuclear weapons during this formative period was characterized by paradox and ambiguity. The paradox was that while there was a widespread consensus in political and military circles in favour of nuclear deterrence, there were constant disagreements over the requirements of an effective deterrent policy. These disagreements centred on six main questions: whether deterrence was best achieved through punishment or denial; whether deterrence necessitated nuclear superiority; whether preparations had to be made for a long war or a short war; what strategic implications followed from nuclear stalemate; whether limited nuclear wars could be fought without escalation to all out nuclear war; and whether pre-emption was politically acceptable and militarily necessary. It is argued that the failure of successive governments to provide clear political direction on these issues meant that British nuclear strategy was more ambiguous and much less coherent than is usually supposed.

Stilwell and Mountbatten in Burma Jonathan Templin Ritter, 2017-04-15. *Stilwell and Mountbatten in Burma* explores the relationship between American General Joseph V. Stilwell and British Admiral Lord Louis Mountbatten in the China Burma India Theater (CBI) and the South East Asia Command (SEAC) between October 1943 and October 1944 within the wider context of Anglo-American relations during World War II. Using original material from both British and American archives, Jonathan Templin Ritter discusses the military, political, and diplomatic aspects of Anglo-American cooperation, the personalities involved, and where British and American policies both converged and diverged over Southeast Asia. Although much has been written about CBI, Stilwell, and China, and Mountbatten, no published comparison study has focused on the relationship between the two men during the twelve-month period in which their careers overlapped. This book bridges the gap in the literature between Mountbatten's earlier naval career and his later role as the last Viceroy of British India. It also presents original archival material that explains why Stilwell was so anti-British, including his 1935 memorandum titled 'The British' and his original margin notes to Mountbatten's farewell letter to him in 1944. Finally, it presents other original archival material that refutes previous books that have accused Stilwell of needlessly sacrificing the lives of his men during the 1944 North Burma Campaign, merely out of hatred for the British.

Irish Men and Women in the Second World War Richard Doherty, 1999. The story of Irish involvement in the Second World War is one that has been in danger of being overlooked. This book seeks to ensure that the role of Irish men and women in the forces of Great Britain, Australia, United States, and other Allied nations is not forgotten. Using a variety of sources, including personal interviews, published material, and archives in Britain, Ireland, the USA, and Australia, the author
