Faith General Introduction To Islam:

General introduction to Islam Ali al-Tantawi,199? *General Introduction to Islam* Ali Tantawi,2020-07 This book was first published in the sixties since when it has been reprinted several times In every edition there has been an initial chapter outlining the background to the book where in Shaikh Tantawi explained the reasons for his writing the book and the circumstances under which it was first published In this the tenth edition we give a more detailed summary than in earlier editions Shaikh Tantawi grew up in Syria at the beginning of this century He always expresses great admiration and gratitude to his father Shaikh Mustafa Tantawi who was a leading Faqih jurist in his country According to ShaikhTantawi people in those days were either Shaikhs scholars of Islam or Effendis Arabs who had received a secular education The Shaikhs were uninformed about the modern sciences of the Effendis whereas the Effendis were ignorant of religion Fortunately for Shaikh Tantawi he was among the few to receive both types ofSome years ago Shaikh Tantawi wrote a book entitled Religious Reform wherein he discussed the need for religion and referred to the mooted question of whether man can live without religion According to Shaikh Tantawi such questions can only be answered by counter questions such as whether it is possible for man to lead a material life casting off all his inner emotions of love and admiration of nature and her beauty In this context the author also discussed the values of western philosophers and thinkers such as Kant Newton Pascal and Goethe To disprove the statement made by some of them that the universe was created by accident the author gave the following example If we were to place five balls four white and one red in a bag the probability of taking out the red ball the first time would be one in five Similarly if there were nine white balls the ratio would be one in ten But if one were to place an unlimited number of balls in the bag the probability of picking out the red ball would be one to an unlimited number Therefore we cannot say that the red ball could be picked at the first or even the hundredth attempt So how could the planets that orbit on a set course without colliding with one another have come into existence by accident Therefore there must be a Divine Power behind them In 1936 Shaikh Tantawi went to work as a secondary school teacher in Iraq and he was assigned to the teaching of Arabic literature and religion It was during this time that he felt the need for a simple and comprehensive book on Islam He decided to campaign for this idea and wrote many articles urging the Ulema to compile such a book But no one responded Many years passed Meanwhile other scholars who like the Author were also well read in religious and secular studies had decided to write books on Islam While many of these were excellent a simple and comprehensive book on Islam had still not been published In 1966 the author wrote an article called A General Introduction to Islam It was published in the journal of the Muslim World League at Mecca and caught the attention of a minister in the Saudi Arabian government Mr Muhammad Umar Tawfiq He immediately advised the Muslim World League to commission the services of Shaikh Tantawi to write this book *General Introduction to Islam* 'Alī Ṭanṭāwī,1991 **A Brief Introduction to Islam** Tim Dowley,2019-06-01 This brief introduction to Islam is designed to help readers understand this important religious tradition
