

# MY LIFE PRINCIPLES

Six fundamental principles that always fill my personal and professional life with joy, pleasure and satisfaction

## 1 Do the right thing, always

This is my first model of a joyful life, explained to me by a senior school friend. **If you do this, you will never regret anything from the past**, career choices, business decisions or personal relationships. It takes a lot of courage, but you will have a contented heart all the time.

## 2 Create value for others

**"Your value" is directly proportional to the value you create for others.** Measure your actions by how much they benefit others, whether it is a business meeting, a family dinner, or social media post. Always serve the people around you.

## 3 Embrace imperfection

There is no perfect time to launch a product, start a business, pursue a degree, or change career. You will never have perfect information to make important decisions. **Embrace imperfection, "good enough" is much better than "perfect".**

## 4 Be generous to people

**Be generous in your praise of people, in sharing credit, in kindness, in forgiving, in giving favors.** Be a giver. Be generous with people who disagree with you. Giving favors is the best investment for your career and your personal life.

## 5 Simplify everything

Complexity is the biggest enemy at work, home, in relationships, and with friends. **Be simple, do simple things, have simple ideas, simplify things for people.** Be single threaded to improve productivity. Use images, diagrams, and analogies to explain complex things.

## 6 Overcome fear of failure

**Fear of failure keeps people from achieving great things and miss career opportunities.** Fail; if you have not failed in a long time, you have very likely missed many opportunities. Overcome the fear of failure, you don't have to prove anything to anyone. Abandon your comfort zone.
