Greyhound Racing:

Going to the Dogs Gwyneth Anne Thayer, 2013-06-13 In the 1970s sitcom *The Odd Couple* Felix and Oscar argue over a racing greyhound that Oscar won in a bet. Animal lover Felix wants to keep the dog as a pet, gambling enthusiast Oscar wants to race it. This dilemma fairly reflects America's attitude toward greyhound racing. This book, the first cultural history of greyhound racing in America, charts the sport's meteoric rise and equally meteoric decline against the backdrop of changes in American culture during the last century. Gwyneth Anne Thayer takes us from its origins in coursing in England through its postwar heyday and up to its current state of near extinction. Her entertaining account offers fresh insight into the development of American sport and leisure, the rise of animal advocacy, and the unique place that dogs hold in American life. Thayer describes greyhound racing's dynamic growth in the 1920s in places like Saint Louis, Chicago, and New Orleans, then explores its phenomenal popularity in Florida, where promoters exploited its remote association with the upper class and helped foster a celebrity culture around it. By the end of the century, media reports of alleged animal cruelty had surfaced, as well as competition from other gaming pursuits such as state lotteries and Indian casinos. Greyhound racing became so suspect that even Homer Simpson derided it. In exploring the socioeconomic, political, and ideological factors that fueled the rise and fall of dog racing in America, Thayer has consulted participants and critics alike in order to present both sides of a contentious debate. She examines not only the impact of animal protectionists but also suspected underworld ties, longstanding tensions between dogmen and track owners over racing contracts, and the evolving relationship between consumerism and dogs. She captures the sport's glory days in dozens of photographs that recall its coursing past or show celebrities like Frank Sinatra and Babe Ruth with winning racing hounds. Thayer also records the growth of the adoption movement that rescues ex-racers from possible euthanasia. Today there are fewer than half as many greyhound tracks in half as many states as there were 10 years ago, and half of them are in Florida. Thayer's in-depth, meticulously balanced account is an intriguing look at this singular activity and will teach readers as much about American cultural behavior as about racing greyhounds.

Greyhound Racing And Breeding (A Vintage Dog Books Breed Classic) A. Croxton-Smith, 2011-03-11 This scarce early work on greyhound racing and breeding was originally published in 1927. It is now very hard to find in its first edition and consequently increasingly expensive. VINTAGE DOG BOOKS have republished it using the original text and photographs as part of their CLASSIC BREED BOOKS series. The author was a well-known dog book writer of his day, with his main interest being dogs of a sporting variety. This well-researched book will prove of much interest to all with an involvement with greyhounds. Its hundred pages contain nine detailed chapters, all well illustrated with vintage black and white photographs: How the Sport Originated, Method of Conducting Meetings, System of Handicapping, How to Choose a Dog, The Cost of Racing a Dog, Behind the Scenes, How to Start a Kennel, The Fastest Animal, Heroes of the Track, Rules of the Greyhound Racing Association, Etc. Brooklyn Goes Home Christine A. Dorchak,2023-11-07 The true story of how one greyhound sparked a movement to close the worst dog track in the world and finally found his forever home with greyhound advocates We once met a dog that changed the world His name was Brooklyn It s hard to imagine that a spotted dog would become the inspiration for a worldwide fight that the campaign would be successful and that after a decade of suffering he would come home to us And yet it happened In fact the thirteen short years that Brooklyn spent on this earth would turn out to be one of the most consequential periods in history for greyhounds and for the broader debate on non human animal rights The life of this one dog signaled not only the end of greyhound racing in the United States but also the emergence of the first successful movement to outlaw an animal abuse industry that was powerful culturally resonant and economically significant This history is based on the memories and reflections of Christine Dorchak and Carey Theil and describes twenty years of working together to help greyhounds The two of us grew up more than a decade apart on alternate coasts one raised very traditionally and the other quite liberally one an animal loving Jersey Girl turned lawyer the other a poet and chess master turned political strategist This Yin and Yang turned out to be a curious balance of opposites that is perhaps the reason that the organization survived and then succeeded against very great odds Brooklyn Goes Home is the story of the rise and fall of commercial greyhound racing in the United States and an account of how our small non profit emerged from to make an impact It is also a remembrance of three glorious years spent with a magical dog We hope that readers will find inspiration in our chronicle and perhaps discover new paths to making positive change in the world

The History of Greyhound Racing in New England Robert Temple,2010-12 Chapter One Greyhound Racing Comes To New England Before pari mutuel

greyhound racing came to New England in the mid 1930 s it had a long uphill battle to overcome the region s puritanical resistance to gambling and what many felt was a moral injustice inherent in the sport which was promulgated by the image of dogs hunting down rabbits in what was known as coursing With these objections in mind it is necessary to write a brief history of the reasons why the greyhound first came to America and how greyhound racing came about and evolved into a flourishing sport Later chapters will explain in depth how its critics and changing consumer tastes eventually brought the sport down A Brief History With the great western migrations of the mid nineteenth century and the increased use of farmlands to feed the growing populations came the problem of protecting the crops from jackrabbits was paramount The solution came from the railroad workers and settlers many of whom emigrated from England and Ireland and were familiar with the greyhounds and their hunting skills They began importing greyhounds and selling them to the farmers where they became valuable economic assets by keeping the rabbits away from their cash crops Another purchaser was the U S Cavalry including George Armstrong Custer who utilized their skills for scouting enemy movement and hunting down game Sources say that Custer coursed his greyhounds the night before the 1876 Battle of Little Big Horn and that the dogs survived the next day s battle Meanwhile the farmers looking for entertainment diversions started racing their greyhounds in what were called coursing meets in which the greyhounds chased a live rabbit Gambling at these meets was extensive Coursing s popularity spread rapidly and not just in the farmlands There even were meets in such locations as the mill towns of Lawrence and Lowell Massachusetts and of course gambling was part of the action There was also a spreading humanitarian backlash to coursing As Frank G Menke wrote in the 1942 edition of The Encyclopedia of Sports Opposition to this form of sport developed The humane people of the state rebelled at the idea of killing of the rabbit just to perpetuate a gambling diversion They implored officials to make coursing null and void and this was accomplished The Mechanical Lure The next giant step to overcoming these objections and turning greyhound racing into a sport that quieted many of the humanitarian objections was accomplished by a gentleman named Owen Patrick Smith He is one of the key figures in the history of the sport and was profiled in a long Aug 27 1973 Sports Illustrated article by Robert Cantwell O P Smith 1869 1927 as he came to be known was once hired to organize a coursing meet to promote the city of Hot Springs He then turned his full attention to the invention of a mechanical lure for greyhound racing and in 1910 was granted a patent for the Inanimate Hare Conveyor His breakthrough came at Emeryville CA where a boxing promoter and businessman named George Sawyer built a track in 1919 utilizing the new device In his Sports Illustrated article Cantwell writes of the 1 600 pounds of machinery to carry a one pound rabbit which at times jumped the rail Smith had another problem with the dogmen Cantwell relates They were of the belief that their greyhounds would feel deceived once they knew they were not chasing a live rabbit and never run ag
