Kinship and Performance in the Black and Green Atlantic Kathleen Gough, 2013-11-07 Kinship and Performance in the Black and Green Atlantic advances an innovative and compelling approach to writing comparative studies of performance in transnational intercultural relation to one another Its chosen subject in this case is the cultural and political intersection of African and Irish diasporic peoples and movements Gough approaches her subject via five key flashpoints in Black Green relations moving from the mid nineteenth century to the early twenty first century In turn each of these is related to mediums of performance that were prevalent at the time such as abolitionist oratory and melodrama photography and tableaux architecture and folk drama television and political demonstrations and visual art and dramaturgy By examining the unlikely kinship between social actors such as Ida B Wells and Maud Gonne Lady Augusta Gregory and Zora Neale Hurston and Bernadette Devlin and Alice Childress along with a host of old and new theatrical characters this book explores how a transmedial investigation of gender community and performance allows for a revision of historiography in Atlantic studies while the study itself revises and reimagines key concepts central to performance studies In 2014 Kinship and Performance was given the Errol Hill Award for Outstanding Scholarship in African American Theatre from the American Society for Theatre Research

Black, White, and Green Alison Hope Alkon, 2012-11-01 Farmers markets are much more than places to buy produce According to advocates for sustainable food systems they are also places to vote with your fork for environmental protection vibrant communities and strong local economies Farmers markets have become essential to the movement for food system reform and are a shining example of a growing green economy where consumers can shop their way to social change Black White and Green brings new energy to this topic by exploring dimensions of race and class as they relate to farmers markets and the green economy With a focus on two Bay Area markets one in the primarily white neighborhood of North Berkeley and the other in largely black West Oakland Alison Hope Alkon investigates the possibilities for social and environmental change embodied by farmers markets and the green economy Drawing on ethnographic and historical sources Alkon describes the meanings that farmers market managers

vendors and consumers attribute to the buying and selling of local organic food and the ways that those meanings are raced and classed She mobilizes this research to understand how the green economy fosters visions of social change that are compatible with economic growth while marginalizing those that are not Black White and Green is one of the first books to carefully theorize the green economy to examine the racial dynamics of food politics and to approach issues of food access from an environmental justice perspective In a practical sense Alkon offers an empathetic critique of a newly popular strategy for social change highlighting both its strengths and limitations
