Evil Harmony:

Harmony, 1899 Hermais Colin McAlpin, 1915 *God, Tsar, and People* Daniel B. Rowland, 2020-11-15 *God Tsar and People* brings together in one volume essays written over a period of fifty years using a wide variety of evidence texts icons architecture and ritual to reveal how early modern Russians 1450 1700 imagined their rapidly changing political world This volume presents a more nuanced picture of Russian political thought during the two centuries before Peter the Great came to power than is typically available The state was expanding at a dizzying rate and atop Russia's traditional political structure sat a ruler who supposedly reflected God's will The problem facing Russians was that actual rulers seldom or never exhibited the required perfection Daniel Rowland argues that this contradictory set of ideas was far less autocratic in both theory and practice than modern stereotypes would have us believe In comparing and contrasting Russian history with that of Western European states Rowland is also questioning the notion that Russia has always been and always viewed itself as an authoritarian country *God Tsar and People* explores how the Russian state in this period kept its vast lands and diverse subjects united in a common view of a Christian polity defending its long frontier against powerful enemies from the East and from the West **The Life and the Way**, 1917 **Contemporary African Philosophy of Religion** Ada Agada, Aribiah D.
