## Forms And Functions:

**Essays on Marx's Theory of Value** I.I. Rubin,2014 Economist theorist and historian the author suggests a definition of political economy which has nothing in common with the definition of economics He states that political economy deals with human working activity not from the standpoint of its technical methods and instruments of labor but from the standpoint of its social form *The Collected Mathematical Papers: (1837-1853)* James Joseph Sylvester,1904 *Modular Forms and Functions* Robert A. Rankin,2008-12-04 This book provides an introduction to the theory of elliptic modular functions and forms a subject of increasing interest because of its connexions with the theory of elliptic curves Modular forms are generalisations of functions like theta functions They can be expressed as Fourier series and the Fourier coefficients frequently possess multiplicative properties which lead to a correspondence between modular forms and Dirichlet series having Euler products The Fourier coefficients also arise in certain representational problems in the theory of numbers for example in the study of the number of ways in which a positive integer may be expressed as a sum of a given number of squares The treatment of the theory presented here is fuller than is customary in a textbook on automorphic or modular forms since it is not confined solely to modular forms of integral weight dimension It will be of interest to professional mathematicians as well as senior undergraduate and graduate students in pure mathematics

**Surfacing the Politics of Desire** Rajeshwari S. Vallury,2008-08-09 A particular model of masculine desire has traditionally been evoked in an effort to understand the subordinate role of women in male authored fiction Because of this the belief that male authored texts are unfailingly built upon the denial of feminine difference has come to dominate many aspects of literary studies Surfacing the Politics of Desire re examines the myths of masculine desire in order to challenge this premise placing literature at the centre of recent feminist debates over the ontology and politics of sexual difference Citing examples of textual resistance to analytical feminist thought Rajeshwari S Vallury argues that literature is expressive of desires that are not always configured in terms of oppression or the denial of difference In other words a particular politics of reading obscures the multiplicity of desire that literature is capable of affirming and risks sacrificing the possibilities of both literature and desire Through a re evaluation of the sexual politics practiced by nineteenth century male writers such as Balzac Gautier and Maupassant Vallury moves towards a reconfiguration of the relationship between aesthetics and politics Surfacing the Politics of Desire calls into question dominant feminist approaches to the literary representation of gender Enlisting the philosophy of Deleuze and Guattari Vallury calls for a different method of reading one based on a deeper understanding of the politics of literature
