*Fort Grunwick* George Ward,1977     *The Making of the Black Working Class in Britain* Ron Ramdin,2017-08-22 A classic history of the role of Black working class struggles throughout the twentieth century In this pioneering history Ron Ramdin traces the roots of Britain s disadvantaged black working class From the development of a small black presence in the sixteenth century through the colonial labour institutions of slavery indentureship and trade unionism Ramdin expertly guides us through the stages of creation for a UK minority whose origins are often overlooked He examines the emergence of a black radical ideology underpinning twentieth century struggles against unemployment racial attacks and workplace inequality and delves into the murky realms of employer and trade union racism First published in 1987 this revised edition includes a new introduction reflecting on events over the past four decades     *The Halted March of the European Left* Matt Myers,2025-02-06 The European left seemed to be in rude health during the 1970s Never had so many political parties committed to representing the working class been in power simultaneously across the continent New forms of mobilisation led by female immigrant and young wage earners seemed to reflect the growing strength of the workers movement rather than its pending obsolescence Parties and trade unions grew rapidly as a diverse new generation entered the ranks Why did the left s forward march halt so abruptly The Halted March of the European Left shows how the left s defeats after the mid 1970s were not the inevitable result of de industrialisation or more precisely the transition to a globalised and post Fordist world that abolished the working class as a great historical actor Choices that were made during a concentrated but decisive moment contributed to the left s lost battles The British French and Italian left managed the shift to a new era by marginalising those groups of workers who had invested it with hopes of social and political transformation Communist socialist and social democratic parties helped disempower the new components of the working class in workplaces in society in the political system and successfully disciplined their traditional working class supporters The left encountered a crisis of purpose and identity a sense of both defeat and lost opportunities and the dissolution of the idea of a community of fate amongst workers This book provides a comparative analysis of the left s fragmenting relationship with the working class and a feel for the culture of three leading industrial countries during a traumatic transition of late twentieth century history It concludes that decisions taken by the left during the 1970s contributed to the tragic inversion of the expected outcome of that hopeful decade     *Fort Grunwick* George Ward,1977     *New Society* ,1977     **Science, Technology, and the Labour Process** Les Levidow,1981     *New Community* ,1977     *The Solicitors' Journal* ,1978     *Bookseller and the Stationery Trades' Journal* ,1978     **Library Catalogue of the Institute of Race Relations, London: Regional catalogue** Institute of Race Relations,Institute of Race Relations.
