Essential Plotinus:

The Essential Plotinus Plotinus, Elmer O'Brien, 1964-01-01 The Essential Plotinus is a lifesaver For many years my students in Greek and Roman Religion have depended on it to understand the transition from antiquity to the Middle Ages The translation is crisp and clear and the excerpts are just right for an introduction to Plotinus s many layered view of the world and humankind s place in it F E Romer University of Arizona *The Essential Plotinus* Plotinus, 1964 **The Essential Plotinus** Plotinus, Elmer J. O'Brien, 1980 **The Essential Plotinus** Plotinus, 1964 *The Essential Plotinus* Plotin, 1975 *Ludwig Klages and the Philosophy of Life* Paul Bishop, 2017-11-20 This book provides a unique overview of and introduction to the work of the German psychologist and philosopher Ludwig Klages 1872 1956 an astonishing figure in the history of German ideas Central to intellectual life in turn of the century Munich he went on to establish a reputation for himself as an original and provocative thinker Nowadays he is often overlooked partly because of the absence of an accessible and authoritative introduction to his thought this volume offers just such a point of entry With an emphasis on applicability and utility Paul Bishop reinvigorates the discourse surrounding Klages providing a neutral and compact account of his intellectual development and his impact on psychology and philosophy Part 1 offers an overview of Klages s life visiting the major stations of his intellectual development Part 2 examines in turn nine major conceptual tools found in Klages s extensive writings aiming to clarify Klages s terminology to demystify his discourse and to sift through Klages s credentials as a psychological thinker Part 3 consists of extracts from Klages s writings thematically oriented these showcase the aphoristic and lyrical as well as psychological and philosophical qualities of Klages s writing including his interest in aesthetics Taken together all three parts constitute a vitalist toolkit to build a fuller richer life Drawing on previous studies of Klages that have only been available in German *Ludwig Klages and the Philosophy of Life* provides a non polemical account of Klages s life and work with explanations and commentaries to guide the reader through extracts from his writings The book accessibly explains the most important ideas and concepts found in Klages s work including soul spirit character expression will and consciousness and it reveals Klages to be a serious figure whose thought remains relevant to many disciplines today It will stimulate interest in his work and create a new readership for his remarkable worldview *Christian Contemplation* Joseph H. Nguyen SJ, 2020-12-02 Spiritual practitioners and experts across religious traditions are convinced that contemplation cultivates an awareness of the deeper desires of the human heart But many will ask does contemplation still exist If one has been led to believe that there indeed exists the art of contemplation one will still perhaps wonder what it is and whether or not it is still relevant and applicable today For many the term contemplation itself perhaps connotes a sense of an exotic practice from a distant past unrelated and impractical to the contemporary life In this book the author explores the nature and functions of Christian contemplation and offers the reader a wide variety of contemplative prayer methods that can help cultivate an awareness of the spiritual dimension of the human life The author argues that Christian

contemplation is the work of the Holy Spirit While drawing upon a variety of Christian traditions the author bases his discussion on the Jesuit tradition of prayer discernment and spiritual growth as revealed in the Spiritual Exercises of St Ignatius

The Human Paradox Ralph Heintzman,2022-08-31 What is a human being What does it mean to be human How can you lead your life in ways that best fulfil your own nature In The Human Paradox Ralph Heintzman explores these vital questions and offers an exciting new vision of the nature of the human The Human Paradox aims to counter or correct several contemporary assumptions about the nature of the human especially the tendency of Western culture since the seventeenth century to identify the human with rationality and the rational mind Using the lens of the virtues The Human Paradox shows how rediscovering the nature of the human can help not just to understand one s own paradoxical nature but to act in ways that are more consistent with its full reality Offering accessible insight from both traditional and contemporary thought The Human Paradox shows how a fuller richer vision of the human can help address urgent contemporary problems including the challenges of cultural and religious diversity human migration and human rights the role of the market artificial intelligence the future of democracy and global climate change This fresh perspective on the Western past will guide readers into what it means to be human and open new possibilities for the future
