Lewis,2014 In recent years there has been a renewed interest in textbooks partly because they have maintained their position as an important genre Not too many years ago and perhaps currently as well many considered textbooks outdated or archaic compared with technological advances such as the Internet and different kinds of educational software Despite these changes textbooks for school subjects and for academic studies continue to be in demand Textbooks seem to constitute a genre in which established truths are conveyed and may thus represent stable forces in a world of flux and rapid changes Textbook Gods offers perspectives on representations of religion and religions in textbooks The contributions emerge from different contexts

ranging from European countries to North America Japan and Australia *The Works Of The Learned and Faithful Minister of Gods Word, Mr. William Fenner ...* William Fenner,1651 *Encyclopedia of Gods* Michael Jordan,2022-12-27 This reference book offers a comprehensive survey of gods and goddesses from cultures across the globe with each entry covering specific cultures dates of worship the role the god played and defining characteristics and symbols *The Daily Life of the Greek Gods* Giulia Sissa,Marcel Detienne,2000 Discusses the everyday life of the gods of the Iliad including what their bodies were made of how they received nourishment their social life on Olympus and among humans and their loves festivities and disputes **The Church School Journal** ,1914 The Nature of the Gods Cicero,2008-06-12 My present intention is to clear myself of any suspicion of partiality by presenting the views of the generality of philosophers concerning the nature of the gods Cicero s philosophical works are now exciting renewed interest in part because he provides vital evidence of the views of the largely lost Greek philosophers of the Hellenistic age and partly because of the light he casts on the intellectual life of first century Rome The Nature of the Gods is a text of central significance presenting a detailed account of the theologies of the Epicureans and of the Stoics together with the critical objections to these doctrines raised by the Academic school When these Greek theories of deity are translated into the Roman context a fascinating clash of ideologies results This fine translation by P G Walsh includes a summary of the Text and an Index and Glossary of Names ABOUT THE SERIES For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more God's Little Children Ione Pratt Hartford,1916 **The Works of W.
