James M. Morgan

Going Jerusalem:

The Englishman's Greek Concordance of the New Testament George V. Wigram, 1903 This work is an attempt at a verbal connexion between the Greek and the English texts of the New Testament The plan proposed was this to present in alphabetical succession every word which occurs in the Greek New Testament with the series of passages quoted from the English translation in which each such word occurs the word or words exhibiting the Greek word under immediate consideration being printed in italic letters Schmid s Concordance to the New Testament was taken as the basis Introduction to the first edition

Divine Plan and Way may not be the way we want but God is wiser than all men put together It is better to follow God s Direction and Strategy than to follow human plan suggestion and counseling Though God s Direction and Method may look foolish to man yet following what God said will bring the best results If you follow God s Direction you would be following the best way no matter how it may look like and if you operate according to His Strategy be sure that you have agreed to operate according to the most effective method no matter how foolish or ineffective it may appear
