Four Archetypes

Walter Ashburner

Four Archetypes:

Four Archetypes C.G. Jung, 2014-12-18 The concept of the archetype is crucial to Jung's radical interpretation of the human mind. Jung believed that every person partakes of a universal or collective unconscious that persists through generations. The origins of the concept can be traced to his very first publication in 1902 and it remained central to his thought throughout his life. As well as explaining the theoretical background behind the idea in *Four Archetypes*, Jung describes the four archetypes that he considers fundamental to the psychological make-up of every individual: mother, rebirth, spirit, and trickster. Exploring their role in myth, fairytale, and scripture, Jung engages the reader in discoveries that challenge and enlighten the ways we perceive ourselves and others.

Four Archetypes C. G. Jung, 2012-01-12 One of Jung's most influential ideas has been his view presented here that primordial images or archetypes dwell deep within the unconscious of every human being. The essays in this volume gather together Jung's most important statements on the archetypes, beginning with the introduction of the concept in *Archetypes and the Collective Unconscious*. In separate essays, he elaborates and explores the archetypes of the Mother and the Trickster, considers the psychological meaning of the myths of Rebirth, and contrasts the idea of Spirits seen in dreams to those recounted in fairy tales. This paperback edition of Jung's classic work includes a new foreword by Sonu Shamdasani, Philemon Professor of Jung History at University College London.

Four Archetypes C. G. Jung, 2010-11-14 Reprint. Originally published 1959. 1st Princeton Bollingen pbk ed published 1970.

Archetypes and the Fourth Gospel Brian Larsen, 2018-06-14 Employing Northrop Frye's system of archetypal literary criticism, the use of romance, tragedy, irony, and satire, and comedy, Brian Larsen offers a compelling summary of the essential governing framework and means of exchange between literature and theology. Characters in the Fourth Gospel are examined through a specific archetype, and reciprocally, these characters illuminate and inform important theological aspects of their respective archetypes: Jesus and romance, hero story, Pilate and tragedy, the Jews and Thomas, and irony and Peter and comedy. This volume further clarifies the understanding of Frye's archetypes and identifies the key variable between each one: the relationship between 1) a belief or ideal and 2) experience or reality. Helping to advance dialogue between literature, biblical studies, and theology, and providing insightful readings for a number of Fourth Gospel characters and texts, Larsen's examination will appeal to those seeking a new perspective on the themes of the New Testament or those seeking theological insights into literature.

Four Archetypes Carl Gustav Jung, 1986 A central concept of Jung's psychology, the archetype can be expressed in many ways: in primitive tribal lore, in myth and fairytale, in dreams and visions. The essays in this book describe four specific archetypes.

The Supraconsciousness of Humanity Eduard Hugo Strauch, 2010 This book makes Strauch one of the true intellectuals in America. DR Charles Herberger, professor emeritus in literature.
